

To whom it may concern;I urge the FCC to reject the NAB's petition 04-160, the reason for my concern is that I live and work in a isolated area of the USA and I purchased and pay for radio that most people take for granted. I can not receive a radio station in a lot of places that my work takes me to.

I again urge the FCC not to take away a right that I pay for and need, I use the radio to keep me awake when I drive, just another reason for me to have the right of satellite radio.

I also keep up with weather as it affects my work as a railroader, and you can't get weather or storm updates at Yeso, NM without satellite radio.
